BIASES & ASSUMPTIONS · TEDx

SEEING ISN’T BELIEVING

Look beyond the story your mind tells you.

Our minds turn limited information into a story. Through psychology, mentalism and storytelling, Andy explores perception and cognitive bias. A different perspective can change what happens next. Discover the ideas behind Andy’s TEDx talk, Seeing Isn’t Believing.

SESSION OVERVIEW

What audiences will discover

Recognise perception and bias.
Notice where your mind fills in the gaps and turns an assumption into a fact.

Question influence and misinformation.
Challenge the confident story before accepting it. Ask what evidence might be missing.

See another perspective.
Explore what you might be missing and how a different viewpoint can change your response.

Seeing Isn’t Believing

For leaders, managers and teams. Running time agreed around your programme.

ANDY NUNN
Keynote speaker & mentalist
