

ANDY NUNN

KEYNOTE SPEAKER | MENTALIST | LEADERSHIP COACH

Intelligence is becoming abundant
The ability to use it wisely is not

Andy makes the hidden workings of the mind visible, helping leaders think clearly, act confidently and lead humanly through uncertainty.

JUDGEMENT / COURAGE / ADAPTABILITY / RESILIENCE

WHY ANDY

For more than 25 years, Andy Nunn has used mentalism to reveal how perception, belief and bias shape behaviour. Drawing on a decade in sales leadership and training, he combines behavioural psychology, audience participation and practical tools to turn abstract leadership ideas into something people can see, feel and use.

The result is a keynote your audience experiences & remembers.

THREE KEYNOTE EXPERIENCES

Reframe discomfort, make friends with fear and take the next useful step before confidence arrives.

03 SEEING ISN'T BELIEVING
